---	---

PARCEL A

- The regulators met again last week to further discuss potential avenues for testing inside SF Shipyard homes. No decisions have been made. We plan to meet in mid-November when Laura Duchnak of the Navy is back from vacation.
- CDPH work continues and we are very happy with the progress they're making. A-2 scanning began last week (with some prep work the previous week). They are working with the developer to schedule in-home dust wipe scanning in November.

PARCEL G

- The EPA sent comments on the Navy's Responses to Comments on the Parcel G Work Plan. The Navy plans to send out its draft final Work Plan Nov. 2.

DOJ TETRA TECH EC LAWSUIT

- DOJ filed paperwork to intervene in 3 whistleblower lawsuits against TetraTech EC. News reports stated that DOJ's focus would be on testing and scanning inside buildings.
- We do not have additional information on this. Has the City heard anything?

COMMUNICATIONS

- Soledad has sent EPA responses to SF Chronicle questions regarding the protectiveness of dust standards during the RSY pad process in 2007.
- What has the City heard about this or any other issues?

OTHER

- Fred Jordan from the African American Chamber of Commerce met with Region 9 Administrator Mike Stoker last Tuesday. He invited Linda Parker Pennington who came later and met with me and the Regional Administrator's Senior Advisor.

MAYOR/SUPERVISOR

- Do you have any news from the Mayor or President Cohen?
